HOLLOWAY'S PILLS.

Impurities of the Blood.

Enhancement of the Blood-a particular adment, there may be some difficulty ancies one can be found to purify, regulate, at improve the quality of the blood. These Pi.'s, possess and exert these three qualifications in an extraordinary degree. They enable the stomact to digest any ordinary food, increase the secretory powers of the liver, cleanes and purify the blood, expel all morbid matter, and throw into the cir-culation the purest clements for sustaining an repairing the frame. Weakness and Debility.

How many persons sufter from debility without knowing the causes why they are feebled. In mose cases the atomach is the aggressor. Holloway's Pilis have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are therefore confidently recommended as a never-failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Diseases of the Head and Heart. These formidable diseases are, unfortunately firequent occurrence; for the most part they recep on gradually, but may be prevented by roper precautions. Holloway's Pils are the arest perservatives against all derangements of the brain and are the speediest correctors of regular circulation. If they be taken without clay when tingling in the limbs, drowsipess, or additions comes on, the effect will be marvelous.

Females of all Ages and Classes. The fame of these Pills is partly based upon he beneficial effects they have upon the constitutions of females. From the domestic servant to the precess, universal favour is accorded to hem for their invigorating and purifying proprites, which render then so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering the womanhood or approaching the turn of life—the best critical prince—may be radically removed by a recourse to these Pills.

All Disorders affecting the Liver, Stomach

and Bowels. Whenever the stomacs, liver, or bowels are dis-ordered by high living, canate, over-indulgence, undue exertion or other causs, these fine regula-ting Fills will soon rectify the veil, and speedily bring back energy, strength, and theerfulness to the frame where previously all was lassitude, gloom, and delection. Despondency, Low Spirits.

The misery o casionad by a disordered digestion is unformately, felt by most. These famous Pilis should be taken in appropriate doses, to adjust the disturbed functions. They dispel headache, billiousness, nausca, lowness of spirits, and all similar adments. A course of these invaluable purifying Pilis never fails, in removing the cause of such morbid affections, without subjecting the sufferer to any inconvenience.

Influenza, Diptheria, Bronchitis, Coughs and Colds,

In our changeable climate, few persons escape without colds, sore throats, i-fluenza, diptheria, or cronchitis, for all of which these famous corrective Pilis may be taken with the certainty effecting a cure While the Pilis are expelling all impurities from the body generally, Holloway's Ointment should be well rubted upon the chest and throat; it will penetrate the skin, reduce inflamation, and restore lasting soundness.

Holloway's Pills are the best remedy known

THE NEW BRUNSWICK CRISIS,

There is something just now in the politi-cal atmosphere of the British colonies that is strangely inharmonious. No sooner has the excitement of the Australian collision begun to disappear than a fresh imbroglio arises in New Brunswick. By the arrival of the mail yesterday we learn that Lieutenant Governor Gordon has given great offence to his "constitutional advisers," and that the Ministry have in consequence resigned. The subject of the difference is rather interesting. New Brunswick, as our readers know, has responsible Government; but the Upper House, like our own, is nominative, and is therefore an irresponsible body. It is from the Assembly the Governor takes his advisers, who form the Executive Council. On a recent occasion, however, it would appear His Excellency acted on an important matter without the concurrence of his Ministers Certain resolutions passed by the Legislative Council praying that Her Majesty might introduced into the Imperial Parliament a measure to unite all the North American Provinces under a scheme of confederation, were forwarded by the Governor with an endorsation of the views contained in the address. As these views were to some extent, adverse to the sentiments of the Ministry, and as the advice of the Ministry was not solicited, the gentlemen composing this body resigned and threw the responsibility of the situation on the Governor. The gist of the reasons for resigning is thus stated in the Ministerial address:—"The reply given by Your Excellency to the Legislative Council is a distinct and emphatic approva of their proceedings, the responsibility of which your advisers are unwilling to assume for the following reasons : 1st. That in any measure involving an organic change in the Constitution and political rights and privileges of the people, they should be consulted, and, unless approved of by them, no such measure should be adopted or forced upon them. 2nd. That in March last a dissolution took place professedly with a view to ascertain the sense of the people upon the Quebec Scheme, and they pronounced unmistakably against its adoption by large majorities 3rd. That the representatives of the people at the last session of the Legislature, passed resolutions condemnatory of such scheme by a majority of 29 to 10. 4th. That the Legislative Council are not elected by the people, and are not constitutionally responsible to them for their Legislative conduct, and have no rightful authority to pray Her Majesty to give effect by Imperial legislation to any measure which the people have rejected 5th That such proceeding violates every principle of responsible and self-government and is subversive of the rights and liberties of the people, and seeks to take from them their Constitution, not only without their consent, but against their clearly expressed

We sympathise with Governor Gordon as we did with Sir Charles Darling-for the cause he espouses is the right one-but we must say that, like the Australian Governor he has done wrong. He has not acted constitutionally, nor has he acted with policy. He found a majority of the representatives of the people hostile to the policy which the Imperial Government desired to see carried out, and, instead of wounding their dignity and creating fresh complications, it was his duty to soften down as much as possible the political bitterness of party spirit. So far from that it would appear he has been engendering distrust instead of removing it by accepting the advice of members of the Opposition. Nothing could have been more indiscreet; for, New Brunswick, as late advices showed, was advancing rapidly in the cause of Confederation, and there was ever prospect of the measure, in a very little time, meeting with the support of the Assembly Now, however, the Governor has given the anti-confederates a cry that may prove ruinous to the cause of cotonial union—a cry that the Constitution is upset and that Confederation is to be forced upon the people. We hope, however, the public mind of New Brunswick will prove less confined-that it will follow quickly in the wake of Nova Scotia and accept the Imperial policy. With this end in view Governor Gordon has called a new Ministry together with Mr. Tilley, the former Provincial Secretary, in his old position, and several weeks have been given them to organize their party. The Legislature will assemble on the 15th of May, and it will then be seen whether the Government can be carried on by members in favor of Confederation. If Tilley gets into a minority again there is but one course, and that dissolution. Under any circumstances the unfortunate collision is likely to postpone Imperial action on the question for another year-a misfortune that cannot be otherwise than

The System is Mathematically perfect, hence it removes all anxiety regarding the fit of a Dress. There will be no AITERING—DO TAKING UP or LETTING OUT, which not only injures the material but destroys the proportions and often ruins the Dress. It is not only exact, but so clear and simple that any person can learn in an hour to cut any garment.
How many ladics of limited means could dress better could they SAVE THE PRICE OF THE MAKING OF A DRESS, which they can do by the use of these MODELS; and how much useless anxiety would be saved by the wealthy and most fastiflous were they certain that the dress being made would fit to please them. It would fit to the themselves, all the little Jackets, Pantalouns, Dresses, Aprons, etc., while the children are happy at school or at play. Ladies, just try to realisey ourseives being able to cut, after a few hours' attention to this System, every style of GORED DRESS to fit perfectly without the aid of a pattern or of trying on, and every style of Basquine Cloak, Circular Cloak and all other Cloaks, and indeed every article of wearing apparel to fit w, vry size, from the habe to the largest person, and the cutting to be a delight instead of et along without these Models.

THE COLUMBIA RIVER DISASTER .- An ac-

count appears elsewhere of the fearful disaster, involving a sad loss of life, that befell a party of miners and others returning from Big Bend. Among the sixteen persons who lost their lives on the occasion, are the following; who were well known in Victoria:—Mr. J. McKicl, brother-in-law to Mr. Daniel Adams, one of the survivors. Mr. Richard Goldsworthy, of this city and Williams creek, one of the original members of the Barker claim, out of which be took in earlier days upwards of \$25,000. Mr. Goldsworthy was a native of Cornwall, a first-rate miner, and a man universally liked, for his money went on every occasion to assist his brother miner. He leaves a wife and a brother in this city to mount his loss. Mr. Wm. Coldwell, of New Brunswick, lately clerk to Mr. Stronach, lumber merchant of this city, a highly respected and promising young man. He has a brother in this colony. Mr. Richards an industrious Cornish miner, who worked for some time at Big Bend. Among the sixteen persons who in this colony. Mr. Richards an industrious Cornish miner, who worked for some time at Leach river, and his nephew, Mr. Hookin, a plasterer of this city,—and soveral others who have friends down here.

Disaster on the Columbia-Sixteen Men Drowned--Several Victorians the Northern Line, with his headquarters at Lost -- Good Accounts from the Mines.

From Mr. D. F. Adams, who arrived yester

day by the steamer Enterprise, we obtain following particulars of a sad catastrophe that occurred on Saturday, the 19th, by which sixteen men lost their lives in the fatal Dalles de Mort on the Columbia river. Mr. Adams and a party of twenty-four men started from others to Seymour, intending to remain there for a few weeks until the mines were clear of snow and fit for working up the creeks.—
The party, twenty-five in number, took passage in a large old H. B. Company boat belonging to Colville, and proceeded down the river until they reached the head of Little Death rapids, where all but four landed.—
Our informant and three others pulled the boat, steered by Capt. Lennoy. for two miles down, when the rest of the party, save three, overtook them, and being fatigued wished to come on board. The boat was pretty well laden and down by the boad. Within ten minutes after pushing off they passed a bend and came upon a riffle, when the boat shipped a lot of water which frightened the four rowers so much that they became para for a few weeks until the mines were clear rowers so much that they became para-lysed and unable to pull or to do anything. The captain tried to get her to shore, and had The captain tried to get her to shore, and had the men pulled three good strekes all would have been saved, but the boat became unmanageable and drifted sideways over a fall into a deep boiling hole. She capsized in an instant, and the four men mentioned below succeeded in getting on her bottom. The rest of the party were observed to go down head first in every direction under water, and were not seen to rise again. The four men retained their hold with considerables difficulty, the boat being sometimes straight on end and dancing like a cork in the whirtpool, until she drifted into an eddy about 100 vards above the main rapids, where nothing could have possibly lived. Two oars then varies above the maio rapids, where nothing could have possibly lived. Two ours then floated up; Adams got hold of one, and three men and some Indians who were on shore seized the end and pulled the boat ashore, thus enabling the survivors to escape. The cause of the disaster was owing to the river having risen and deceived the captain and boatmen. The names of the lost and saved are as follows, several of whom are well known in Victoria: DROWNED.

THE MANES.

out by a big flood, carrying away wing dams and doing other damage. The Discovery Company were full of water. On McCullooh's Creek things appeared

On McCulloch's Creek things appeared more lively, a great number of mer working on the flate and benches. With all the inconveniences of snow, water, and weather quite a number were washing from \$5 to an ounce a day on the first stratum of clay. There are two strata, the first of a yellow and the second of a blue color.

One company had got down through the blue clay to the bed rock (aboût 15 feet) and struck a fine prospect, one piece weighing \$13, which was shown to Judge O'Reilly. The men here were very sanguine and in good spirits. Very few of those who have returned have been up the creeks or done any prospecting.

A creek had also been found emptying into French Creek, about 4 miles above the town, and heading toward McCulloch. There was some difference of opinion as to the prospects obtained, but a number had left with the discoverers to stake out the ground. The snow slides were said to be very heavy on this creek, which would make it late before it goald be worked.

odia be worked. Mr. Adams says it will take another month or two before much is known of the mines though he should not be surprised to hear of big strikes being made in the interval. Mr. Adams has a claim on McCulloch Creek to which he intends returning.

GOWNNENT HOUSE,

To the Honorable the Speaker and Members of the Legislative Assembly.

Gentlemen,—I have the honor to acknowledge the receipt of an Address from the Legislative Assembly for "a Return of the sums of money borrowed from the respective Banks of this Colony, and due at the expiration of the year 1805; also the amount borrowed during the year 1866, and now owing on account of the General Revenue"; and "a Return showing the authority under which the Governor negotiated such loans respectively."

I would take the opportunity thus afforded me to recall the attention of the Assembly to the fact that I have specially brought this subject under the notice of the House, on everal occasions.

several occasions.

If addressing the House on 16th May, 1865, now more than twelve months ago, I stated that owing to the smallness of the balance in the Treasury, I had been under the necessity of arranging with the Bank of British North America, to overdraw, to the amount of \$10,000—that the Bank had agreed to a further advance of \$10,170, to be applied to meeting the liabilities of the Corporation of the City of Victoria, an application of the public funds in which the Assembly expressed concurrence, by resolution dated 23rd January, 1865,—that in view of the necessity of remitting immediately to England £2000, to meet payments on account of interest and sinking fund of loan, and of providing for current expenditure, a further credit of \$20.000 had been obtained from the Bank—and further that on that date (16th May 1865) the sum of \$39,794, was due by the Oclony to the Bank of British North America.

Again, the House will perceive that in a communication I had the honor to make on the 10th January, 1866, relative to the partial non-payment of the sums voted for 1865 tial non-payment of the sums voted for 1865 for the Royal Hospital, Victoria, for the Female Hospital, and for the Victoria Fire Department, I stated, "I have already caused \$3,000 or one moiety of that grant to be paid, but in consequence of the income for the year falling short of expenditure, and a debt to the Bank having thereby been already incurred. The Legislative Assembly, by resolution dated 31st January, 1866, expressed the opinion that the sums due (on account of votes for 1865) to the Royal Hospital and the Victoria Fire Department "should be paid forthwith." The Assembly, however, did not by that Resolution determine any "other means" for the payment of the ap-"other means" for the payment of the ap-propriation than by an increase of the debt to the Bank as indicated in my Message. The amount due to the Bank of British North America on the 31st Decomber, 1865, was \$63.515, and the amount due at the present time is \$80.561.

I take this opportunity of directing the attention of the Legislative Assembly to the fact that the Estimates of Revenue and Expenditure for 1866 have been more than five months before the House, and that no Bill of Supply has been passed nor have ways and means been provided for the processor.

Mr. Pidwell was introduced by Dr. Tolmie and was about to take the oaths when Mr. Young objected on the ground that the gentleman was not qualified, and gave notice of motion that the question be referred to the Election Committee.

The Speaker ruled Mr. Young out of order. Mr. Pidwell could not be prevented from taking his seat, if he took the oaths.

Dr. Trimble said the whole proceeding was irregular after a member had been elected and returned he could take his seat. (Hear, bear.) degree diminished her sympathy with the humbles. Mr. Peabody had been invited by bankers and merchants of London to a grand dinner previous to his departure for the States.

Cape of Good Hope.

From the Cape of Good Hope the advices are dated to the 15th of March. The drought had everywhere broken up, and copious rains had fallen all over the colony. The colonists were looking forward to prosperous farming and better prospects generally. Business was showing signs of improvement, and the commercial difficulties of the Eastern province had been overcome. The war between the Free State and the Basutos was still lingering on. The Free State Parliament had formally decided in favor of rejecting the offer of mediation made by Sir P. E. Wodehouse. At Natal an active paper war was continued upon the Colense controversy. Mr. Young said he was not actuated by any vindictiveness but merely by a desire to preserve the dignity of the House.

The Speaker said it would come to the same thing whether the motion came up now or at the next meeting as it would have in any case to go to a Committee. The member elect had sworn to his possessing upon the Colenso controversy.

M. Dumortier has presented to the Pope an address sent from Belgium, which deplores that the revolution should have interputed the reform innegative by the Holymond. Mr. Young gave notice that he would move that the Governor be respectfully requested to lay before this House the views of Her Majesty's Government if he has received them, respecting the Tariff Act, 1865, passed by the Legislature of British Columbia, which act imposes differential duties on goods received from Vancouver Island at the ports of that colony. He must express his great surprise at the House sitting with closed doors to discuss this subject.

The Speaker—I must call the hon. member to order. I cannot permit such reflections on the House. You don't know either what arrangements have been made.

Mr. Young went upon what he had learned outside. He deprecated the contract that report gave out as it was making the colony pay five or six times more than the mails might be carried for.

Mr. DeCosmos said the motion was like a fault finding one. The House had determined in secret conclave to request the Governor as a matter of emergency to act on his own responsibility. To ask for returns of what had been done was right enough, but not to pass a motion involving censure.

HOLLOWAY'S PILLS AND ONTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated the wasting which occurs in all discussed fillowing the kidneys. The disordered stomach is often the first index of renal irregularity. Howards remedies used at that juncture would cut short many a serious and fatal attack. They are with womeerful efficacy on every organ of secretion, but especially do they every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the olintment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary in fluence of the Pills.

HOLLOWAY'S OINTMENT.—Wounds, Scalds, Burns, and Irritating Sores.—The peculiarly mild, southing, anti-inflammatory power exerted by this Ointment strongly recommends its use to all per, sons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and never long tortues the little sufferer, whose very cry excites each bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Ointment an essential to a well appointed nursery. The Ointment is applicable to any ore, whatever its character. It conducts to health as sure as the compass points to the north.

HOLLOWAY'S OINTMENT AND PILLS—Palpita-. . .

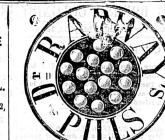

as sure as the compass points to the north.

HOLLOWAY'S OINTMENT AND PILLS—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from badto worse, unless proper means of cure be resorted to. In Holloway's unrivailed Ointment and Pills' the dronsical patient will ever find succour; the present relief derived from th. use of these remedies is marvellously quick, and preseverance in the strady spplication of this net the Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system that the dropsical fluid vanisher, and the sufferent finds all the oppressive symptoms daily decline, till natural health returns.

HOLLOWAY OINTMENT AND PILLS.—Fistu las, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by ap-plying this Ontument after formentation with warm plying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excitation, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration. OLLOWAY'S OINTMENT AND PILLS.—The y medical chest that is furnished with these rful remedies needs nothing more. Indiges-general dibility, liver complaint, eruptions, general dibility, liver complaint, eruptions, wounds, alcers, tumours, X.c., are infaired and g. e tone and vigour to the whole system. The Contment, when well rubbed into the parts affected, enters the fiesh just as salt enters meat, and if the Pills be taken as an auxiliary, are cure is speedy, thorough, and permanent. These medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are efficacious.

HOLLOWAY'S PILLS AND OINTMENT.—Influenza, Colds.—In diseases of the throat and chest Holloway's Pills and Onnment—Influence, Colds.—In discase of the throat and chest, seprevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either-case, in disastrous consequences. Whateverthe condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbife matter is expelled, and a happy revolution occurs throughout the system.

Holloway's Ointment and Pills.—These potent remedies constitute a materia medica in themselves, for there is no i ternal or external disorder cont. Ollable by met. Aire for which the one or the other of them is not a positive remedy—cruptions, tumyrs, secrotula, scurry, cancer, asthma, rheumatism, gout, and dropsy entirely subside and disappear under the action of these joint medicines; and in cases of indigestion, sick headache, bile, liver complaints, debility, and other disorders originating in the inturnal organs, the Pills produce the most astouishing results implication. The student of Nature knows how simple are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature.

the simplicity of Nature.

HOLLOWAY'S OINTMENT AND PILLS—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most re markable; it seems at once to lessen inflammation, enso pain, reduce the swelling, restore the frecirculation, and expel the disease. In these countries in the second plaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happies, effect in assisting the Ointment.

HOLLOWAYS PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovnet the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are semsected by a cheerful activity of the physical and merial hunctions. Indigestion is the parent of so mean exiltantiation, and is so common, so univorsal a complaint, the it is a great blessing that such a remedy set this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Phila ar nand.
